YOUSSEF AYASH

JUNIOR FRONT-END DEVELOPER | WEB DEVELOPMENT

Phone: 01065112135 | **Email:** ayashyousef10@gmail.com
Location: Menoufia, Egypt
Portfolio: youssef-ayash-portfolio.vercel.app | GitHub | LinkedIn

PROFESSIONAL PROFILE

Aspiring Front-End Developer and secondary-school student with practical experience creating responsive websites and interactive web projects. Builds interfaces using HTML5, CSS3, and JavaScript, and has practical exposure to Node.js, Express.js, PostgreSQL, API integration, and deployment workflows. Interested in developing accessible, responsive, user-friendly products while strengthening software engineering fundamentals through real projects.

CAREER GOAL

To grow into a professional Software Engineer, beginning with a Front-End Developer role. Looking for a suitable entry-level opportunity, supervised internship, or project-based experience where I can contribute my current skills, learn professional workflows, receive feedback, and gradually take on more responsibility. Long-term interests include modern web application development and full-stack engineering.

TECHNICAL SKILLS

Front-End Development: HTML5, semantic page structure, CSS3, responsive web design, Flexbox, CSS Grid, transitions, animations, and interface styling.
JavaScript: ES6+, variables and functions, DOM manipulation, events, form handling, validation, Fetch API, Promises, Async/Await, and browser Local Storage.
Back-End Fundamentals: Node.js, Express.js, REST-style request handling, authentication concepts, error handling, and PostgreSQL database connection/integration.
Development Tools: Git, GitHub, Visual Studio Code, browser Developer Tools, npm, and deployment platforms including Vercel and Railway.
Working Practices: responsive testing, debugging, organizing project files, maintaining existing code, and deploying web projects.

SELECTED PROJECT EXPERIENCE

YA Portfolio — Personal Developer Portfolio

Designed and developed a personal portfolio to present projects, technical skills, and contact information. Built the front end with HTML, CSS, and JavaScript, with responsive layouts and interactive sections. Worked on SEO fundamentals, metadata, structured data, sitemap configuration, and deployment.

Live: Portfolio website | **Repository:** GitHub repository

Al-Masai School Website — School Web Platform

Worked on an Arabic, right-to-left school website project. Practiced building web interfaces and connecting an Express.js backend to PostgreSQL. Explored handling submitted data and preparing a dashboard workflow for school registrations.

Urban Cart — E-commerce Website

Worked on an e-commerce front-end project with shopping interface features. Implemented or explored cart, wishlist, checkout, profile, and order-related interactions using browser Local Storage.

Additional Practice Projects

GreenBasket Hypermarket: retail website interface with a defined visual identity and responsive layout.
AI Vision: an experimental project/repository exploring an AI-vision concept.
Restaurant and landing-page projects: multi-section and multi-page website practice focused on HTML structure, CSS styling, and responsive presentation.

EDUCATION

Al-Masai Military Secondary School for Boys
First Year of General Secondary Education | Menoufia, Egypt

PROFESSIONAL STRENGTHS & LEARNING

Self-directed learner • Practical, project-based development • Interest in clean and maintainable code • Willingness to learn from code reviews and teamwork • Focus on improving problem-solving and debugging skills

ADDITIONAL INFORMATION

Target roles: Junior Front-End Developer, Front-End Intern, or suitable beginner web-development opportunity. Work preference: open to remote and on-site opportunities that are appropriate for my current education and experience level.
